Education

Computer Science and Design, B.S.
@Northeastern University, Khoury College of Computer Sciences

Boston, MA | Spring 2027 graduation (expected) | GPA: 3.6

Relevant courses: Web Development, Algorithms & Data, Object-Oriented Programming, Discrete Mathematics, Human-Computer Interaction, Information Design, User-Experience Design, Typography, Information Presentation & Visualization, Graphic Design, Fundamentals of Computer Science 1 & 2

Experience

Marketing Analytics Co-op
@The Boston Beer Company

Jul 2025 - Present
Boston, MA

- Led a UX research stint to refine a system for delivering quick, high-level quarterly measurements to brand teams, producing a concise yet thorough email one-sheeter
- Eliminating the need to create any additional brand and sales lift study PowerPoints by consolidating data into a filter-able, interactive Power BI dashboard
- Introducing user-experience and design principles into the marketing analytics team's work, helping release work that is more easily understandable for and usable by the brand teams

UI/UX Design Lead (Cooper)
@Sandbox

Jan 2025 - Present
Boston, MA

- Led the design side of the project, mapping out how to move forward with design and project management given project timeline and dev constraints
- Restructured the main job page and overall site flow to ensure ease of navigation and intuitive information architecture
- Established design system, creating a clean and professional, yet friendly brand image

UX Designer
@Radien

Jul - Aug 2024
Seattle, WA

- Conducted interviews with cross-team tech-industry workers to identify pain points in their work and gather insights for solution development
- Led the ideation phase of the project, managing and contributing to the generation of 20+ low-fidelity prototypes of potential solutions
- Created an extensive, high-fidelity prototype in Figma, responding to user needs and Radien's goals for improved workflow efficiency

Data Analyst
@Aspire Institute

May 2024
Remote

- Analyzed email data in Excel and created comprehensive data visualizations
- Provided solutions on how to improve customer retention and engagement by leveraging various social media platforms

Projects

Personal Portfolio Website (link)

Sep 2024 - Present
Boston, MA

- Designed a high-fidelity prototype using Figma and implemented it in a single-page React application
- Showcased multiple unique project pages
- Utilized efficient coding practices like mapping and components to optimize performance and code maintainability
