# Rebecca Choi

choi.re@northeastern.edu
(510) 682-0020

Boston, MA
Available: May - Dec 2026

Combining tech, design, and data to create meaningful and useful solutions.

**Portfolio:** rebeccachoi.netlify.app **LinkedIn:** linkedin.com/in/ryschoi

---

## Education

**Computer Science and Design, B.S.**
@Northeastern University, Khoury College of Computer Sciences

**Boston, MA | Spring 2027 graduation (expected) | GPA: 3.6**

Relevant courses: Web Development, Algorithms & Data, Object-Oriented Programming, Discrete Mathematics, Human-Computer Interaction, Information Design, User-Experience Design, Typography, Information Presentation & Visualization, Graphic Design

## Experience

**UI/UX Design Lead (Cooper)**
@Sandbox

Jan 2025 - Present
Boston, MA

- Working in a team of five developers and three designers to develop a platform for Northeastern students to share and read co-op reviews
- Restructured main job page and overall site flow to ensure ease of navigation and intuitive information architecture
- Established design system, creating a clean and professional, yet friendly brand image

**UX Designer**
@Radien

Jul - Aug 2024
Seattle, WA

- Conducted interviews with cross-team tech-industry workers to identify pain points in their work and gather insights for solution development
- Led the ideation phase of the project, managing and contributing to the generation of 20+ low-fidelity prototypes of potential solutions
- Created an extensive, high-fidelity prototype in Figma, responding to user needs and Radien's goals for improved workflow efficiency

**Data Analyst**
@Aspire Institute

May 2024
Remote

- Analyzed email data in Excel and created comprehensive data visualizations
- Provided solutions on how to improve customer retention and engagement by leveraging various social media platforms

## Projects

**Personal Portfolio Website (link)**

Sep 2024 - Present
Boston, MA

- Designed a high-fidelity prototype using Figma and implemented it in a single-page React application
- Showcased multiple unique project pages
- Utilized efficient coding practices like mapping and components to optimize performance and code maintainability
