Experience

Personal Portfolio Website

Boston, MA | Sep 2024 - present

- Designed a prototype using Figma and implemented a single-page React application
- Showcased multiple unique project pages
- Utilized efficient coding practices to optimize performance and code maintainability

UX Researcher @ Radien

Seattle, WA | Jul - Aug 2024

- Worked closely with three other students and our project sponsor, Radien, a startup that aims to bridge the gap between designers and developers by improving communication, efficiency, and organization in work and handoff between teams
- Conducted interviews with front-end developers and project managers to identify pain points in their work and gather insights for solution development
- Led the ideation phase of the project, managing and contributing to the generation of 20+ low-fidelity prototypes of potential solutions
- Created an extensive, high-fidelity prototype using Figma, responding to user needs and the startup's goals for improved workflow efficiency

Data Analyst & Visualizer @ Aspire Institute

Remote | May 2024

- Analyzed email data and created comprehensive data visualizations in a group of four other students
- Provided solutions on how to improve customer retention and engagement by leveraging various social media platforms

Main Stairs Designer @ Albany High School

Albany, CA | May 2022

- Created a 15-panel design for the school's main stairs that celebrated various highlights from the past school year, fostering unity and school pride
- Helped with the printing and installation of the vinyl design onto the stairs
